Instruction manual

SB03 Soundbar

You'll soon be enjoying your new Soundbar.

It all begins here, with your instructions. Don't worry, there's nothing too technical coming up. Just simple, step-by-step guidance to get you up and running quickly. Sound good? Then let's get started.

Help and Guidance

We're here to help you get the most from your Soundbar. Should you require any guidance, a simple solution can often be found online at:

www.argos-support.co.uk

If you still require further assistance, call one of our experts on 0345 600 3021.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions.

Safety information

1

Safety information

Important - Please read these instructions fully before installing or operating

Power source

- Only use the power supply that came with the product. Using an unauthorised power supply will invalidate your guarantee and may irrecoverably damage the product.
- Disconnect your soundbar from the mains power supply during thunderstorms.
- Always check that you have completely switched off your soundbar, before you change or disconnect the power supply.
- When installed, the power socket must be within easy reach.
- Do not bend, stretch or pull the supply cable in order to avoid electric shock.
- Do not attempt to open the product. This product does not contain any user serviceable parts. Unauthorised handling of the product may damage it and will void your warranty.
- Switch the soundbar off at the mains power socket and unplug it if you are leaving it unattended for a long period of time (holidays etc).
- Remove the battery from the remote control if it will not be used for an extended period of time.
- Only use recommended batteries or those of the same or equivalent type in the remote control.
- Batteries are to be inserted with the correct polarity.
- The supply terminals are not to be short-circuited.
- Never throw batteries in a fire or attempt to open the outer casing.
- Batteries are harmful if swallowed, so keep away from young children.

Moisture and water

- **Do not** use this product near water or moisture.
- **Do not** use this product near a bath or sink, near a swimming pool or anywhere else that water or moisture is present.
- Keep it dry. Avoid exposure to precipitation, humidity and liquids which could all affect the product circuitry.

Heat sources and flames

- Do not leave this product in high temperatures as electronic devices and plastic parts may warp in heat.
- Keep it away from bright sunlight or heat sources, such as a radiator.

Ventilation

- **Do not** install this product in a confined space.
- Allow adequate ventilation to prevent heat build-up.
- **Do not** block or cover slots, holes or openings on the product by placing on soft furnishings such as carpets, rugs or beds as these are provided for functionality and/or ventilation to ensure safe operation of the product.
- For indoor use only.

Care and cleaning

- All care and cleaning operations should be carried out with the Soundbar unplugged from the mains power.
- Occasionally wipe the cabinet with a lint free cloth.
- Never clean the unit with liquids or solvents.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions.

Using your Soundbar

3

Using your Soundbar

Let's get started

Power on

Press and release the Power button on the top of the product or on the remote control. Your Soundbar will switch on in Bluetooth mode. A tone will sound and the blue LED behind the front lens will flash quickly whilst your product searches for Bluetooth devices.

Standby mode

Press and release the Power button on the top of the product or on the remote control. Your Soundbar will go to Standby mode. The red LED behind the front lens will flash slowly in Standby mode.

Note: This product is designed to go to STANDBY mode automatically after 15 MINUTES (approximately), if it does not receive an audio signal. Press and release the Power button on the Soundbar or on the remote control to switch your product back on again.

Change the mode

Press and release the Source button on the top of the Soundbar or on the remote control to change between Bluetooth, Aux in and TV modes.

The blue LED behind the front lens will move to indicate the current mode.

Note: Approximately 60 seconds after you have selected the mode (Bluetooth/Aux in/TV), the LED indicator will turn off. When you press any button on the remote control, the LED will turn back on again, to indicate the current mode. A further press of the remote control will activate the function required.

Adjusting the volume

Vol- (on the soundbar)/ (on the remote)

- Press and release to decrease the volume in steps.
- Press and hold to progressively decrease the volume.

Vol+ (on the soundbar)/ (on the remote)

- Press and release to increase the volume in steps.
- Press and hold to progressively increase the volume.

Note: You will hear an audible alert when the minimum or maximum volume level has been reached.

Bass or Treble enhancement

The Bass and Treble settings each range from -3 to +3.

1. Press and release the Bass or Treble + or - button on the remote control to adjust the Bass or Treble as appropriate.
2. Press and release the Reset button on the remote control to reset your Soundbar to its EQ, Bass and Treble settings.

Equaliser (EQ)

There are 4 EQ settings available on your Soundbar. These are Music, News, Movie* and Flat.

* Movie is the default setting and your Soundbar will be set to this when you first use your product.

1. Press and release the EQ button on the remote control to cycle through the available options.
2. Press and release the Reset button on the remote control to reset your Soundbar to its EQ, Bass and Treble settings.

Using your Soundbar

Let's get started

Pairing with a Bluetooth device

Before you can use your Sound bar in Bluetooth mode with your TV or other Bluetooth capable device, you need to 'pair' it.

1. When you first power on your Soundbar or when you change the mode to Bluetooth, the blue LED on the front of the product will flash quickly whilst your product searches for Bluetooth devices.
2. On the device that you would like to connect to your Soundbar via Bluetooth (e.g. TV/iPhone/iPad/Android/other phone/Tablet/Computer), turn on Bluetooth connectivity and ensure that it is 'discoverable'.

Note: If necessary, refer to the instructions for your device to add or set up Bluetooth.

3. When found, your Soundbar will be displayed as 'BUSH Sound bar'. Select the device name to begin pairing.

Note: If your device requests a password, please enter '0000' to complete the device pairing.

4. When pairing is complete a tone will sound and the blue LED will change to be continuously on (not flashing).

Note: After approximately 60 seconds the blue LED will turn off. You can press any button on the remote control, to turn the LED back on again.

5. Now that you have paired your device with the Soundbar, it will connect to it when it is within range, which is about 10 metres or less (33 feet or less), line of sight.
6. Your device will remain paired with the Soundbar unless you decide to disconnect or 'unpair' it.

Note: You can press and hold the Pair button on the remote control to unpair your current device and search for new devices.

Controlling a paired device

Once paired you can either use the controls on the connected audio device to play/pause, skip tracks etc., or you can use the control buttons on the Soundbar remote control.

 Play/Pause

 Press and release to skip forward

 Press and release to skip back

Aux in mode

Check that your Soundbar is in Aux in mode. If you are not already in Aux in mode, press and release the Source button on the Soundbar or on the remote control to go to Aux in mode. The blue LED behind the front lens will move to indicate this.

1. Connect one end of a 3.5mm audio cable to the headphone (or auxiliary out) socket of your secondary device.
2. Connect the other end to the Aux in socket on the back of your Soundbar.
3. Press the Play button on your external device to start playback through the Soundbar.
4. To gain optimal volume levels, adjust the volume level on both the secondary device and on the Soundbar.

Note: It is recommended that you unplug the audio cable from the Aux in socket on the back of the Soundbar, after you have finished listening to your external device.

Using your Soundbar

Let's get started

TV mode

Check that your Soundbar is in TV mode. If you are not already in TV mode, press and release the Source button on the Soundbar or on the remote control to go to TV mode. The blue LED behind the front lens will move to indicate this.

1. Connect the Left (white) and Right (red) RCA cables supplied to the Left (white) and Red (right) sockets on the back of the Soundbar.
2. Connect the other end of the cables to the Left and Right sockets on your TV.
3. The sound output from your TV, will now be via your Soundbar.
4. To gain optimal volume levels, adjust the volume level on both the TV and on the Soundbar.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions,

Troubleshooting

No power:

- Check the power plug connection at the back of the Soundbar and at the wall socket.
- Check that you are not in Standby mode. Press and release the Power button on the Soundbar or on the remote control.

Unable to pair with a Bluetooth device:

- Check that you are in Bluetooth mode.
- Ensure that you are within range of the Soundbar for Bluetooth functionality, 10 metres or less (33 feet or less).
- Check that the device you are attempting to pair with supports A2DP stereo audio transmission.
- Move any other unnecessary Bluetooth devices/electrical equipment away from the Soundbar and if possible, turn them off or disable their Bluetooth functionality.

No sound / Sound distortion:

- Adjust the volume
- Increase the volume on the secondary device and on your Soundbar.
- Check that you are in the correct mode for the music that you wish to listen to.

Remote control does not work:

- Reduce the distance between the remote control and the Soundbar.
- The remote control battery may be exhausted. Replace the remote control battery.
- The remote control needs clear line of sight, without obstacles, to function correctly. Direct sunlight or other bright light sources shining on the remote sensor may affect the performance.

Source LEDs turn off:

- The Source LEDs on the Soundbar have been designed to turn off after approximately 60 seconds so that they do not interfere with your TV viewing. Press any button (except Power) on the remote control to turn the LEDs back on again.

Soundbar powers off:

- Your Soundbar has been designed to automatically go to Standby mode after approximately 15 minutes without an audio signal, to save power. Press the Power button on the Soundbar or on the Remote control to turn your Soundbar back on again.

If you require any technical guidance or find that your product is not operating as intended, a simple solution can often be found in the **Troubleshooting** section of these instructions.
